

# IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este aviso contiene información muy importante sobre su agua potable. Si necesita una explicación en Español, por favor llame la sistema de agua (650)599-1473.

## CSA 7 Water System (Water System No. 4100509)

6/07/2021

# BOIL WATER NOTICE

## Boil Your Water Before Drinking or Food Preparation to Avoid Illness

Due to an alarm failure at the Surface Water Treatment Plant that resulted in the discharge of water that was not adequately disinfected in the CSA 7 Water System on June 6th, the State Water Resources Control Board, Division of Drinking Water, the San Mateo County Health Department, and the County Service Area 7 Water System are advising residents to only use boiled tap water or bottled water for drinking and cooking purposes as a safety precaution to avoid stomach or intestinal illness.

The affected area includes: Pescadero Creek Rd, Alpine Rd, Loop Rd, Pope Rd, the trailer park, Memory Lane, Ranger Station & the Hiker's Hut.

We will inform you when tests show that water is safe to drink, and you no longer need to boil your water. We anticipate resolving the problem before the end of the day on 6/11/21.

If you have questions about other uses of tap water, such as bathing and dish washing, please call your water system or read this guidance: <https://www.cdc.gov/healthywater/emergency/dwa-comm-toolbox/before/tools/What-to-Do-During-a-Boil-Water-Advisory.docx>

### Do not drink the water without boiling it first

- Boil all water for one (1) minute (rolling boil).
- Let water cool before drinking.
- Use boiled or bottled water for drinking, brushing teeth, and food preparation until further notice.
- Boiling water kills bacteria and other organisms in the water.

### If you are unable to boil your water:

#### Household unscented liquid bleach

- For clear water, use 8 drops (1/8 tspn.) of bleach for 1 gallon of water. For cloudy water, filter through a clean cloth and use 16 drops (1/4 tspn.) of bleach for 1 gallon of water.
- Mix well. Allow to stand for 30 minutes before using.
- Water may taste or smell like chlorine. This means disinfection has occurred.

#### Water disinfection tablets

- Please follow the manufacturer's instructions.

If you are concerned about your health or the health of a family member, contact your health care provider or the San Mateo County Health Dept. (650)573-2764.
