

Ghilotti Construction Company

NOTICE TO RESIDENTS/BUSINESS OWNERS

Date: Starting 07/13/2026

Subject: County Service Area No. 7 Water System Distribution Pipeline Improvements

This notice is to inform you that the County of San Mateo, Department of Public Works, has contracted with Ghilotti Construction Company to install new treated water distribution pipe from the existing water treatment plant in various location around the unincorporated area of La Honda.

The County Service Area 7 Water System Distribution Pipeline Improvements Project is a significant investment in the La Honda community's drinking water infrastructure. The project will replace and improve critical portions of the water distribution system by constructing approximately 1.3 miles of new treated water pipeline connecting the water treatment plant to key areas of the community.

The improvements are intended to enhance the reliability and resiliency of the water system, improve operational flexibility, and reduce the likelihood of service interruptions associated with aging infrastructure. The project will also support the County's ongoing efforts to provide safe and reliable drinking water service and maintain compliance with State drinking water requirements.

The project is being funded through Measure K funding, allowing the County to make these critical infrastructure improvements while minimizing costs to local ratepayers. Upon completion, the improvements will help ensure the long-term reliability and sustainability of the CSA 7 water system for the benefit of the La Honda community.

Construction activities are scheduled to begin near your location on 07/13/2026
